About me

I am a fourth-year IT Engineering student at the Royal University of Phnom Penh. I currently work as an IT Instructor at ETEC Center, teaching practical IT skills. I am responsible, motivated, and always eager to learn and improve in the IT field. I am also willing to learn new things and take on new challenges to grow my skills.

Experience

IT Instructor   April 2025 – Present
ETEC Center

- Teach front-end and back-end web development: HTML, CSS, Bootstrap, JavaScript, Tailwind CSS, React, Vue, PHP, and Laravel
- Prepare lessons and practical exercises for students
- Guide students in building projects and improving coding skills
- Support students in problem-solving and debugging code
- Maintain a positive and motivating learning environment

Project Experience

- **Stock Inventory System (Year 4)** – Individual project. Developed a stock management system with React for the frontend and Tailwind CSS for UI styling, and Laravel for the backend.
- **Zcode Learning Platform (Year 3)** – Group project. Built an online learning platform using Vue.js and Tailwind CSS, collaborating with team members on features and interface design.

Education

Royal University Of Phnom Penh   2022–Present
Bachelor of Information Technology Engineering

Triel High School   2022
Graduated
